# doForms simplifies and accelerates how you collect info in the field and get it back to the office.

It's a **mobile app** for easily collecting info directly on tablets or smartphones. Goodbye paper and hassles.

And it's a **web dashboard** for building forms and accessing complete and accurate data back at the office.

Question	Answer	Detail
What is doForms?	**doForms is a complete mobile forms solution** for any company that needs to get data to or from their employees in the field – fast, inexpensively, and accurately.	**Complete solution:** Mobile app lets those in the field receive, complete, retrieve, and send forms Web portal lets customers build forms easily and quickly, dispatch forms, and manage/track forms and data Additional capabilities let customers integrate forms data into existing back-end systems, and track and schedule workers
What's the value proposition?	**doForms + tablet + a data plan will save companies money and time** – while significantly improving responsiveness, customer service, data breadth and accuracy, and cash flow.	A typical company can save >$150/month/mobile employee in hard costs and productivity improvements after paying for doForms + mobile device + data plan
What are some of the things doForms can do that paper can't do?	Paper just captures written information. **doForms takes advantage of everything that a modern mobile device can do.** **doForms can eliminate most manual data entry** with its easy, no-programming-required configurable integration. (Integrates with QuickBooks, Salesforce, SharePoint, Excel, Access, Sage 50/100, SQL, MySQL, and more – extra annual licensing charge.)	• Photos/write-on photos • Video, voice-to-text, audio capture • GPS and time stamps • Maps and directions to job sites • In-form, instant calculations • Signature capture • Checklists and radio buttons • "If-then" logic to hide fields until needed • Dropdowns and look-ups • Instant delivery to the back office • Instant emailing of a branded, formatted pdf to customers • No-swipe credit card payment
Why will your customer benefit?	**They can get away from paper forms,** which are sucking cash and productivity out of their company.	• Dramatically cut costs for printing, data entry, forms drop-off, mileage for forms drop-off, postage, copying, filing, print cartridges, paper, and more • Improve productivity by significantly reducing wasted "paperwork" hours in the field and data entry hours in the back office • Vastly improve data accuracy and job documentation • Speed up bid and proposal development and customer approvals and sign offs • Simplify invoicing and collections • Improve cash flow

Question	Answer	Detail
Has doForms been proven in the market?	**doForms serves some of the largest companies in the world** and has a large and fast-growing customer base among small and medium business users.	• doForms is now used by over 10,000 customers from all over the world • One of the world's largest telecommunications companies uses doForms to inspect its cell towers globally • Governments, healthcare agencies, utilities, large real estate and construction firms... every company with a field workforce can use doForms
What does doForms cost?	**Professional Edition:** $9.95/month/mobile device or $99.95/year **Dispatch Edition:** $14.95/month/mobile device or $149.95/year **Integration and Synchronization Capability:** $1,495/year (in addition to doForms Professional or Dispatch licenses) **Tracking and Scheduling Capability:** $995/year for 2 dispatcher seats; $1,495/year for 5 seats (in addition to doForms Professional or Dispatch licenses)	• Unlimited number of forms and forms submissions • Dispatch edition lets you send, forward, and retrieve specific forms to and from specific users • See price sheet for more information
Will doForms work on any mobile device?	**Yes.** doForms works on virtually any modern mobile device: smartphones, tablets of any size, iOS and Android systems.	• Forms automatically optimize for the mobile device • You can use same form in "mixed" environments (smartphones/tablets; iOS/Android) • Tablets are recommended for field use because they're easier to use – faster adoption and forms completion
Is data safe?	**Yes.** Data is on the secure Google cloud. For added protection (supporting HIPPA compliance or enterprise security) data can be encrypted on devices and brought directly to a server behind a company's firewalls.	• doForms has passed large enterprises' stringent data security tests • Note that HIPPA compliance pricing is different due to complexity – call for pricing/quote
Does printed data have to look just like the mobile form?	**No.** Using our custom output template, your customers can easily create PDFs that look like their existing statements, reports, and invoices – with their colors and branding.	• Excel-based template – easy to use
Can customers try before they buy?	**Try at no risk.** Because you're a preferred doForms partner, we'll not only give your customers a free 1-month trial, but we'll quickly build their first 1-2 page form for free.	• Free form offer is a $99 value • Get customer's 1-2 page paper form; fax to 908-505-5020 or scan and email to getstarted@doforms.com • Visit doForms.com to set up customer's account, and download doForms app from Play Store or App Store onto customer's device
