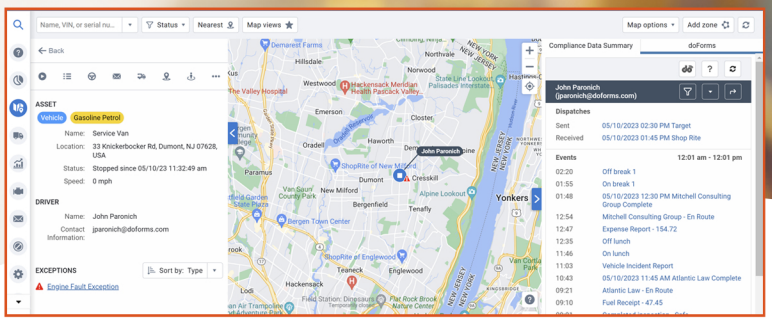
Introducing GEOTAB® Integration with doForms®



Are you tracking your employees with **Geotab?** What happens once they get to their job? With doForms you can document all work performed, deliveries made, products sold, and all services rendered. doForms adds job scheduling, real-time dispatching and electronic data collection into the **Geotab** platform seamlessly.

- Job Scheduling
- Real-time Dispatch
- Driving Directions
- Traffic based ETAs
- Electronic Timesheets
- Vehicle Inspection
- Driver Login
- Data Collection

doForms is working with **Geotab,** its customers and its resellers around the globe to deliver a full suite of mobile technologies and data collection solutions.

Geotab provides customers with a wealth of powerful features and functions. By combining **Geotab** and doForms you significantly enhance your capabilities.

- Credit Card Payment
- Shipping Labels
- Barcode Scanning
- Label Printing
- Signature Capture
- Image Capture
- Charts and Graphs
- Scheduled Reporting
- Proof of Delivery
- Field Service
- Inventory
- Healthcare
- Public Sector
- Merchandising
- Human Resources
- Chain of Custody

doforms®

geotab@doforms.com | www.doforms.com

Geotab Portal with Embedded doForms

27986	767646466
Dolly No.	**Trailer No.**
Location	**Time**
Yard	04/24/2023 11:59 AM

Code Numbers for Maintenance Department Use Only

POWER UNIT

General Condition

	Defect	Remarks
02 Cab/Doors/Windows	☐	
02 Body/Doors	☐	
Oil Leak	☑	Puddle under truck
Grease Leak	☐	
42 Coolant Leak	☐	

*Open and or edit forms directly in the **Geotab** portal giving you instant access to all collected data.*

- **Add additional data collection forms with integrated Geotab data retrieved from the Geotab system in Real-time.**
- **Add custom forms and solutions tailored to meet your exact requirements.**
- **Forms can retrieve and embed current Geotab data:**
  - Latitude & Longitude
  - Speed
  - Current status duration
  - VIN
  - License plate & State
  - Vehicle name, make, model & year
  - Current address
  - Odometer
  - Engine hours
  - Fuel level
  - Driver name & email
  - Current **Geotab** zone *(name of **Geotab** geofence)*

Adding Geotab data into doForms is easy...

Just add a field in your form. *Ex (Odometer)*

Then use the **Geotab** tool to request the odometer and place it into your odometer field. doForms acquires your driver and vehicle ID automatically so it always asks for the correct information.
